weigh up the evidence for yourself...

print and document strategies for the legal sector
Actually it’s the excellence of our service that makes the difference, because it’s a service that has been honed and polished through our long experience with many legal firms across the country. We understand exactly what is required. So, because we tailor the technology and support package to suit your situation, you’re assured that it will be exactly what you need and you won’t be paying for unnecessary facilities and features.

Unbeatable technology, service and value - You can’t get better than that.

**HIGGS & SONS**

The benefit of installing multifunctional devices alongside print management software is evident in the reduction of waste that is now being produced by our office. We are delighted that Altodigital has been able to aid us in achieving our two overriding key goals, saving on costs and reducing our environmental footprint.

**PINSENT MASON**

Altodigital helped us to streamline our print operation by reducing the number of devices to a more manageable level. We now have a print fleet that is more economical to run, and a bespoke software solution that enables our people to securely print documents when they travel to different offices across the UK.

**KNIGHTS**

As an ambitious firm it’s very important for us to have best-in-class IT solutions, and that is exactly what Altodigital have delivered. Security is also paramount for any legal firm, and through the innovative deployment of solutions such as Equitrac, we have ensured our client’s details are safer than ever.

**SCALABLE SOLUTIONS DESIGNED TO SUIT YOUR NEEDS**

Working with national and regional practices across the UK, as well as international firms with sites across Europe, we appreciate the need for flexible solutions. Each implementation is bespoke and carefully formulated to provide:

- Paperless systems for document management
- Cost identification and reduction
- Solutions tailored to your practice
- Secure & confidential print and copy systems
OVER 35 YEARS PROFESSIONAL EXPERIENCE

The legal profession is unique, with standards that cannot be compromised. Very few print and copier suppliers fully understand these needs. Even fewer satisfy them. Our long established involvement though, makes Altodigital your perfect partner. As a supplier to many of the top law firms in the UK, we understand your requirements and have the necessary experience to significantly improve your document processes.

A LITTLE BIT ABOUT US

We are one of the UK’s most experienced and respected office technology providers. As an approved supplier to legal firms across the UK, we have developed specialist document solutions that meet the needs of the legal sector.

With your own dedicated support team you are assured of the ultimate in personal service, together with advanced technology that delivers impressive print standards, while at the same time helping you lower costs, reduce energy consumption and minimise carbon emissions.
In the legal profession, where data security and client confidentiality can never, ever be compromised, we guarantee that our copier, print and data storage and retrieval systems meet the most stringent specifications and demands.

Most of our law office installations are designed to operate on multiple security levels. General office technology for instance, that can be accessed and operated by everyone involved. Enhanced security systems digitally protected for use only by nominated personnel. And top-end, high-security units that can only be accessed by the authorised senior partners and managers.

We are able to identify the potential document security risks within legal practices and have the necessary experience to ensure appropriate solutions are implemented and managed effectively to eliminate such threats. Our aim is to ensure you keep your documents secure and in safe hands.

**UNRIVALLED IN SECURITY AND CONFIDENTIALITY**

**WHY ALTODIGITAL?**

- Independent Provider
- Over 35 Years in the Industry
- Over 8000 Customers Nationwide
- Bespoke Solutions
- ‘Best of Breed’ Approach
- No subcontracting to third parties
- Strong Partnership Ethos
- Legal Sector Experience
Our advanced print management technology dramatically reduces your paper dependency, enabling you to create PDFs and faxes; and to send, receive, file, archive and retrieve all these essential documents – electronically. It’s safe and secure, meaning you can confidently meet all your legal and professional obligations regarding record keeping and data protection.

Assessing your business processes and how documents are produced is a crucial element in creating and simplifying document workflow processes. This not only improves productivity, but creates clear transparency of your print and document infrastructure, enabling accountability and providing clear audit trails to assist with compliance. By adopting this approach you can benefit from improved management information and a significant reduction in administration time, making your printing costs leaner and increasing overall operational efficiency.

Proprietary software designed specifically for the legal sector

The needs of the legal sector are unique. Our organisation provides bespoke solutions that are far reaching and include:

- Comprehensive document management
- One pass solution
- Dedicated client billing
- Streamlined scanning and filing
- Parchment solutions
- Secure document transfer
- Pull print capability
- Mobile print

PAPER IS EXPENSIVE….

Not just the increasing cost of stock, but the cost to the environment in terms of natural resources, manufacturing, energy, shipping and carbon emissions. Paper is also expensive to process, distribute and file.
ALTODIGITAL
COMMITTED TO HELPING YOU GO FURTHER

It's no longer enough to think about simply supplying the technology. The future challenge is to work in partnership to reduce costs and enhance efficiency. That is Altodigital.

Our pedigree
For over 35 years we have not only provided top brand office solutions, we have established an outstanding reputation as one of the UK's leading specialists throughout the private and public sectors. Our experience means that what we do is as important as what we supply.
