

Cyberattacks are inevitable. Is your company prepared?

As business evolves, the scale and sophistication of cyberattacks do too, leaving no company immune to security breaches.

By accessing sensitive data, a single cyber incident can cripple an entire company. To combat these security threats, proactive and comprehensive security measures are a must.

Xerox® IT Services delivers the robust security solutions needed to safeguard your company's technology infrastructure and protect against hackers and security breaches. All-encompassing protection for your technology systems allows your company to operate with confidence.

COMPREHENSIVE SECURITY YOU CAN COUNT ON

Today's next-generation cyber threats demand next-level, end-to-end security solutions. The Xerox IT Services security framework provides multi-layered security that protects organisations in several ways, from data and documents to people and devices, and even down to the security rules, features and systems to keep your business as secure as possible.

SECURITY CAPABILITIES

We look at the big picture and drill down into the details – from in-depth risk assessments, compliance assessments that uncover vulnerabilities, to designing and deploying custom, right-sized security solutions to protect your IT infrastructure. Cyber threats never stop evolving, and neither do we – we're constantly innovating to deliver the latest, most robust security capabilities.

MANAGED SECURITY OPERATIONS

With ongoing monitoring, support and vulnerability management, we proactively identify and address the security issues unique to your business. We can be your complete Security Operations Centre (SOC) or act as a seamless extension of your IT department.

MANAGED ENDPOINT DETECTION & RESPONSE

With intelligent security incident notification and suggested remediation, our managed security operations help you stay on top of threats with proactive detection and resolution of suspicious behaviour. With increased visibility, expert analysis and a proactive response to security issues, you're free to focus on what matters most – your business.

XEROX IT SERVICES SECURITY

PROTECT YOUR BUSINESS

Real-time protection saves precious time, money and resources.

SOLVE PROBLEMS BEFORE THEY EVEN HAPPEN

Proactive features identify and resolve security issues in your IT infrastructure.

CREATE AND MAINTAIN A SECURE WORKPLACE

Enhanced security and compliance measures protect your employees and customers.

Security solutions that fit your business.

As a strategic partner with a broad IT portfolio, we provide scalable hardware, software and security solutions made to fit both your immediate and future needs. In addition to expert guidance, you can trust the Xerox IT Services security framework to streamline and tackle the most complex security challenges, including threat detection, incident response and compliance management.

INSTEAD OF A ONE-SIZE-FITS-ALL SECURITY SOLUTION, OUR TEAM OF EXPERTS CAN HELP YOU DESIGN A SECURE IT INFRASTRUCTURE WITH THE RIGHT HARDWARE AND SOFTWARE TO MEET YOUR NEEDS.

RISK ASSESSMENT & SCORING

Hands-on technical validation of all security technologies within your IT environment, including:

- Device control
- Wireless
- Password effectiveness
- Physical security
- Vulnerability scans
- Penetration tests

COMPLIANCE ASSESSMENTS

We help you manage and maintain regulatory requirements and compliance by:

- Interviewing key stakeholders
- Reviewing key documentation
- Reviewing completeness and maturity of technology usage
- Prioritising recommended improvements

SECURE INFRASTRUCTURE

Our broad Managed IT Services Portfolio can secure your:

- Laptops, desktops and servers
- Software
- Cloud service subscriptions
- IT peripherals/printers
- Network gear and accessories
- Firewalls

MANAGED SECURITY OPERATIONS

We provide efficient incident detection and response services:

- Proactive monitoring
- Log and event correlation
- Penetration testing
- Vulnerability management and reporting
- Security risk assessments
- Incident response
- Cloud intrusion detection

MANAGED ENDPOINT DETECTION & RESPONSE

Managed endpoint detection and response:

- Threat intelligence integration
- Storyline technology for fast RCA and easy pivots
- Device control
- Rogue visibility to uncover devices on the network that need agent protection

ON-DEMAND SECURITY SOLUTIONS

Our information security team provides expert guidance every step of the way:

- Create and manage your information security programme and help maintain Governance, Risk and Controls processes
- Ensure compliance readiness aligns with regulations and standards
- Scale solutions to your specific business needs and requirements
- Conduct annual information security training to empower your teams

We've got you covered.

End to end, top to bottom, inside out – that's the way we do security.

Our holistic approach leaves no device unprotected. The best part?

Our security solutions are made to fit, and we can do all the heavy lifting.
